

VULNERABILITIES BULLETIN

Proactive vulnerability notification is critical to effective risk management. VeriSign® iDefense Security Intelligence Services delivers comprehensive, actionable intelligence aiding customers in making decisions in response to threats on a real-time basis. The following is a list of VeriSign iDefense Exclusive Vulnerabilities that have been publicly disclosed by the vendor since Jan. 1, 2009. The table shows the number of days VeriSign iDefense customers receive notification on Exclusive Vulnerabilities in advance of public disclosure.
